ABOUT US

WHY MMI WAS STARTED

- India has crores of two-wheelers on the road, yet many vehicle owners struggle to find a skilled, trusted mechanic. At the same time, many ITI and engineering graduates are still looking for jobs — not because of lack of effort, but because of lack of the right, practical skills.
- MADRAS MECHANICAL INSTITUTE (MMI) was founded in 2008 to close this gap. In collaboration with the Education & Industrial Training Revolution Trust (E.I.T.R Trust), we provide industry-focused, hands-on training that turns students into skilled technicians and confident entrepreneurs.
- Today, with the EV revolution reshaping India's automotive landscape, MMI stands at the forefront — training the next generation of EV-ready professionals.

WHAT YOU WILL LEARN**Petrol Bike & BS6 Service****EV Motor & Wiring****Lithium Battery Practical****Classroom & Handbooks****WHY STUDENTS CHOOSE MMI****REAL WORKSHOP, REAL MACHINES**

You learn by doing — on actual bikes, scooters and EV systems, every day.

PAID SERVICE CENTRE TRAINING

Real work at our MOU partner service centres, with a minimum stipend of ₹10,000 per month*.

MMI DIPLOMA

MMI Diploma from an ISO 9001:2015 certified institute.

TAMIL & ENGLISH

Classes and our own published handbooks in Tamil and English — easy for every student.

SHOP SETUP SUPPORT

Want your own shop? MMI supports you with tools, documentation, garage setup, simple marketing and customer support.

CAREER AFTER THE COURSE

Our students working as technicians earn ₹15,000 – ₹30,000 per month, depending on their skills and experience.

Real result: In our last batch, **all 15 students were placed** — 5 at Bgauss and 10 at local service shops.

* Stipend is based on attendance and exam pass. Service centre training guaranteed for students who pass the exam with required attendance.
